

MARINE SAFE

ZING®

ALUMINUM PONTON & BOAT CLEANER

DESCRIPTION

ZING® Marine Safe Aluminum Pontoon & Boat Cleaner is best for pontoon owners and detailers who want performance and a higher level of safety than offered by traditional cleaners. It cleans and brightens aluminum, improving both performance and appearance of pontoons. This non fuming, easy-to-use cleaner can be used daily or anytime in-season to remove waterline stains and marine soils on aluminum pontoons. It is excellent for removing water scale buildup on exhaust ports and lower units of outboard motors.

FEATURES

- Cleans and brightens aluminum!
- Removes marine stains and oxidation
- Loosens and removes barnacles and zebra mussels
- VOC free, phosphate free
- Contains readily biodegradable ingredients
- Use on both fresh and salt water boats

DIRECTIONS

Read entire label and directions before use. Read entire label and directions before using. Protective gloves and glasses are recommended when using this product. Safe on fiberglass, painted wood or metal surfaces.

HEAVY STAIN: To remove heavy water line stains and deposits, use **ZING® Marine Safe Aluminum Pontoon & Boat Cleaner** full strength.

MILD STAIN: Dilute 1 part **ZING® Marine Safe Aluminum Pontoon & Boat Cleaner** into a plastic pail filled with 1 part water.

1. Lightly pre-wet surface to be cleaned before applying **ZING® Marine Safe Aluminum Pontoon & Boat Cleaner**.
2. If using **ZING® Mop Applicator**, saturate it with **ZING® Marine Safe Aluminum Pontoon & Boat Cleaner**.
If using **ZING® Acid-Resistant Spray Applicator**, fill with **ZING® Marine Safe Aluminum Pontoon & Boat Cleaner**.
3. Apply to a 4 to 6 feet area with saturated mop or apply with spray applicator in an even pattern, working from the bottom to the top.
4. Make sure the area is well-saturated with **ZING® Marine Safe Aluminum Pontoon & Boat Cleaner**.
Do not apply to an area larger than can be scrubbed while wet.
Allow several minutes to penetrate stains.
5. Rinse thoroughly with water.
6. Repeat process on remainder of surface.

NOTE: Difficult to remove stains may require additional applications and/or may need to be scrubbed with **ZING® Mop Applicator** or nylon brush.
