

MARINE SAFE

ZING®

BOAT HULL CLEANER

DESCRIPTION

ZING® Marine Safe Boat Hull Cleaner is designed for boat owners and detailers who want performance and a higher level of safety than offered by traditional products. This non fuming, easy-to-use cleaner can be used daily or anytime in-season to remove waterline stains and heavier soils on boat hulls. **ZING® Marine Safe Boat Hull Cleaner** can be used to remove water scale buildup on exhaust ports and lower units of outboard motors. Ideal for fiberglass, gel coat, painted wood and metal hulls. It is excellent for removing water scale buildup on exhaust ports and lower units of outboard motors.

FEATURES

- Removes marine stains, algae, and discoloration
- Loosens and removes barnacles and zebra mussels
- Phosphate free, VOC free
- Contains readily biodegradable ingredients
- Use in fresh and salt water

DIRECTIONS

Read entire label and directions before use. Read entire label and directions before using. Protective gloves and glasses are recommended when using this product. Safe on fiberglass, painted wood or metal surfaces.

HEAVY STAIN: To remove heavy water line stains and deposits, use **ZING® Marine Safe Boat Hull Cleaner** full strength.

MILD STAIN: Dilute 1 part **ZING® Marine Safe Boat Hull Cleaner** into a plastic pail filled with 1 part water.

1. Lightly pre-wet surface to be cleaned before applying **ZING® Marine Safe Boat Hull Cleaner**.
2. If using **ZING® Mop Applicator**, saturate it with **ZING® Marine Safe Boat Hull Cleaner**.
If using **ZING® Acid-Resistant Spray Applicator**, fill with **ZING® Marine Safe Boat Hull Cleaner**.
3. Apply to a 4 to 6 feet area with saturated mop or apply with spray applicator in an even pattern, working from the bottom to the top.
4. Make sure the area is well-saturated with **ZING® Marine Safe Boat Hull Cleaner**.
Do not apply to an area larger than can be scrubbed while wet.
Allow several minutes to penetrate stains.
5. Rinse thoroughly with water.
6. Repeat process on remainder of surface.

NOTE: Difficult to remove stains may require additional applications and/or may need to be scrubbed with **ZING® Mop Applicator** or nylon brush.
